

PRIPOJENIE USB

Rýchly, bezpečný prenos snímok do PC.

LED INDIKÁTOR STAVU PRÍSTROJA

Svietiaci indikátor vždy zobrazuje stav prístroja

BEZDOTYKOVÝ

Plne automatický proces načítania snímky.

Vysoké rozlíšenie

Vynikajúca digitálna kvalita snímok, v kombinácii s praktickosťou, výhodnou cenou a flexibilitou tradičného filmu robí z Hy-Scan skenera perfektný rovnovážny mix medzi technológiou a tradíciou.

Hy-Scan kombinuje najlepšiu digitálnu diagnostickú technológiu a výhody klasických filmových platničiek. A compact, fast, simple device to use, which produces high resolution intraoral images for always-reliable diagnosis. The thin, ergonomic plates are easy to position, the entire surface is active and they offer maximum patient comfort. The TOUCH-FREE plate insertion and recognition system makes the scan even simpler. The scanner can import an image in just a few seconds, allowing it be displayed immediately on the PC or, thanks to a special APP, on an iPad.

Easy, compact, reliable diagnostics.

- Essential, compact design
- Ergonomics and positioning comfort
- High definition digital images
- User-friendly

KOMPAKTNÝ A ERGONOMICKÝ

Jednoduchý a kompaktný dizajn skenera Hy-Scan je perfektný pre akúkoľvek dentálnu ordináciu. Extrémne univerzálny, môže byť umiestnený horizontálne na stole, alebo vertikálne na stene použitím špeciálneho držiaka.

HIGH QUALITY IMAGES IN EVERY APPLICATION

Hy-Scan is the ideal instrument for all clinical applications: endodontics, prostheses and implant surgery, periodontics and caries diagnosis. It reliably provides the very best high definition images with a resolution of 34 pixel/mm. The scanner is compatible with four sizes for the acquisition of paediatric (Size 0), periapical (Size 1), bitewing (Size 2) and long bitewing (Size 3) images with a pixel size of 30µm.

TOUCH-FREE ACQUISITION

User-friendliness and maximum workflow efficiency. Hy-Scan has a servo-assisted, fully automatic system that accepts and scans (TOUCH-FREE) the impressed plates, recognises the size, imports the image to the PC and deletes all the data from the plate so it is immediately ready for the next image capture.

FAST IMAGE DISPLAY

A high quality image can be imported in just a few seconds. Equipped with cutting-edge technology, Hy-Scan lets users view sharp images extremely quickly, leading to effective diagnosis and better communication with the patient.

iRYS - iPad CONNECTIVITY

Position the plate with ease and comfort and then capture high definition images. After inserting the plate, the scanner rapidly executes the scan. The images are then transferred to the PC, consulted and shared using iRYS software or another viewer; they can then be printed or sent via e-mail.

THE BEST WORKFLOW FOR EFFECTIVE DIAGNOSIS

Position the plate with ease and comfort and then capture high definition images. After inserting the plate, the scanner rapidly executes the scan. The images are then transferred to the PC, consulted and shared using iRYS software or another viewer; they can then be printed or sent via e-mail.
